To: Kung, David C

Dr. Kung,

Just wanted to thank you for the wonderful effort your students put forth this fall term. Looking forward to trying out the new system after the holidays.

A request I got from an MAE advisors:

Due to concerns that students will sign up with the wrong advisor, can you offer a separate link to students depending on their status.

For example:

Mechanical Engineering undergraduate students link: http://ME-UGRD_online_appt.com

Access to Calendars for:

Dr. Amaya sees students with last names A-K

Dr. Michael sees students with last names L-Z

Aerospace Engineering undergraduate students link: http://AE-UGRD_online_appt.com

Access to Calendar for:

Dr. Han sees all undergraduate AE students

Mechanical Engineering graduate students link: http://ME-GRAD_online_appt.com

Access to Calendar for:

Dr. Nomura sees all graduate ME students

Aerospace Engineering graduate students link: http://AE-GRAD_online_appt.com

Access to Calendar for:

Dr. Dogan sees all graduate AE students

Or, will there be one link and students choose their major/status on the first screen?

For example:

http://UTA_online_appt.com

- Aerospace Engineering undergraduate advising
- Aerospace Engineering graduate advising
- Civil Engineering undergraduate advising
- Civil Engineering graduate advising
- Computer Science Engineering undergraduate advising
- Computer Science Engineering graduate advising
- Math undergraduate advising
- Math graduate advising
- Mechanical Engineering undergraduate advising
- Mechanical Engineering graduate advising

Other suggestions:

- Current students must provide 10-digit student ID number and UTA email. This could be the initial login each time.
- Prospect students (with no UTA ID# and no UTA email) can log in without an ID#, possibly name instead of ID# number and other email.
- Advantage of having student's create an account is that they only have to enter their contact information the first time, faster process the subsequent visits to site.
- All students must provide a phone number in case of last minute cancellation.
- Add comment field to appointment process.
- Calendar view preferable to list view for available and filled appointments. Easier to determine which days and times are available.

Thanks and happy holidays,

Kathy Priester
